Objective

Aspiring to leverage my expertise in data engineering, ETL pipelines, and cloud technologies to design scalable data solutions. Passionate about optimizing data workflows, ensuring data integrity, and driving business insights. Seeking opportunities to contribute my skills in SQL, GCP, Snowflake, and data modeling in a dynamic and growth-oriented environment

Experience

- Quantiphi Analytics Solutions Mumbai** Nov 2022 - Present
Data Engineer
Data Engineer with 2.5 years of experience designing scalable data pipelines on GCP. Skilled in ETL, BigQuery, Apache Airflow, and real-time processing. Google Cloud Professional Data Engineer and SnowPro Core Certified, with hands-on expertise in cloud data warehousing, analytics, and fraud detection.

Education

Course / Degree	School / University	Grade / Score	Year
BE	Indira College of Engineering and Management pune	7.3	2021
Diploma	Government polytechnic Yavatmal	6.9	2017

Skills

- Cloud platform:- GCP, Snowflake, AWS, Azure
- ETL & Data Pipelines: Apache Airflow, Pentaho
- Databases: PostgreSQL, MySQL, Snowflake
- DevOps & Tools: Git, JIRA
- Strong Problem-Solving & Analytical Skills
- Programming: SQL, Python, PySpark, Scala,Java

Projects

- Automated ETL Pipeline for E-commerce Analytics**
Tech Stack: Snowflake, SQL, Python, AWS Lambda, Apache Airflow
✔ Description: Developed an automated ETL pipeline to integrate and transform e-commerce data from multiple sources into a centralized Snowflake data warehouse.
✔ Impact: Improved reporting efficiency by 50%, enabling real-time sales analytics for business decision-making.
- Data Warehouse Migration to GCP**
Tech Stack: BigQuery, Apache Airflow, Python, SQL
✔ Description: Migrated 300TB of data from an on-premise warehouse to Google BigQuery, optimizing storage and query performance.
✔ Impact: Reduced query execution time by 40% and lowered storage costs by 35% using partitioning and clustering strategies.

Certificate

- SnowPro Core Certification
- Professional Data Engineer
- Professional Cloud Database Engineer
- Google Associate Cloud Engineer
- AWS Cloud Practitioner
